360 Warren Street, NY NY	Yes		Thanks so much for doing this!				
			Residents of the CBD should be exempt from any congestion pricing. We more than make up for our contribution to the city by the elevated taxes, high grocery prices, passed on inflation costs through all essential services, parking costs. Not to mention the loss of safety on the subways and while walking on the streets. No congestion pricing for residents!

no garage, they are all too expensive	Yes		We already pay the highest taxes in the country and are faced with substantial rent increases and rising costs, now the city is looking to make us pay even more in taxes? Many families are being priced out of our neighborhoods and this tax will only add to those pressures. This is an unfair burden to residents.	Ritavthompson@gmail.com			
400 chambers	Yes		We commute to school on the UWS each day as well as go to work outside of the city. We pay tolls and taxes so there needs to be a reduction in fee for those times. The locations are not easily attainable by train				
No garage	Yes		No

300 North End	Yes		It's very challenging to formulate a clear argument for / against this since the MTA has released such limited details on the actual plans for the congestion pricing

No	Yes		Extend exemption to residents in financial district				
Battery Parking Garage, east of Westside HWy	Yes		I would like BPC to be exempt, because we often have to drive our car from the Battery Parking Garage to our house in case of heavy luggage etc... That said, I am willing to contribute fairly, but it should not imply a prohibitive penalty on BPC residents every time we get a car to leave the city...				
70 Little West St	Yes		Our family has owned our apartment in BPC since 2011. We are active members of the community, contribute significantly to the local economy and send our kids to school here. Unfortunately we are seriously contemplating leaving the city as the costs continue to rise while quality of life continues to decline. This would be the straw that pushes us over the edge. Enough is enough. It's unfortunate.				
None	Yes		An exemption for residents is the only fair solution. The additional cost will have a large impact on my family.				
N/A	Yes		This hurts working families that need to drive just to work and take care of their family needs. Several hundred dollars a month in extra fees is outrageous.				
70 Greenwich street ny ny 10006	Yes		We are mainly concerned about each entry or exit with relation to our child's activities w school after school which sometimes is outside of bpc, as well as multiple trips each month visiting elderly parents, 2 living in Manhattan who require assistance w medications, groceries, escorting dr appts and welfare checks... Living in Manhattan is challenging enough for middle class families and congestion pricing wd add another financial strain on families.				
2 river terrace	Yes		n/a				
Na	Yes		Na				
200 Liberty Street	Yes		Our neighborhood is confined by West Street and to be charged just for getting our car out of the garage and to enter West Street is categorically unfair and an abuse of the congestion price tax.				

333 Rector Place	Yes		I believe congestion pricing is an additional and unfair tax on NYC residents who already pay high rates of tax. It will result in an increase of cost of living with delivery surcharges being passes on to residents, it will clog arterial routes, it will penalize low and middle income people who commute into the city for their jobs and it will see additional funding going to the MTA, which has proved time and again, to be incapable of fiscally responsible administration.				
Na	Yes		I believe in congestion pricing AND the need for a residential exemption				
70 greenwich street	Yes		Na				
2 River Terrace	Yes		BPC is filled with families that need to drive their children to various events. It is expensive enough to live there without the additional and unique potential costs associated with crossing west street.

Battery Park Garage on West Side Highway	Yes	Yes	This will be very tough on our family. Our kids play sports at Pier 40 multiple times a week, including at night and in the winter, and we often need to drive or pick them up as they are too young to subway alone and we aren't comfortable riding the subway with all the crime recently. We cannot afford to pay this toll multiple times a week. We also park across the highway so in the zone but often need to pick up our stuff or drop it off at our BPC apt. Now we would be charged a toll to do this. If this isn't rectified and residents aren't given an exemption, we will have to leave the city along with many other families.				
Pier 40	Yes	Yes	We park at pier 40 because it is slightly more reasonably priced so that means we can get the car and will be charged \$23 to pick up our kids at our house. Alternatively we would need to pick up the kids on West st which is not only very dangerous but also illegal				
200 Rector Place	Yes	Yes	We are just as part of Manhattan as any other resident of the island, and deserve to have the same rights!				
70 Greenwich Street NY NY 10006	Yes	Yes	Residents should be exempt from congestion pricing. We live in this neighborhood...not visiting.				
70 Greenwich Street NY NY 10006	Yes	Yes	Not fair- we live downtown. We should not be paying congestion pricing if we live in Manhattan.				
70 Greenwich Street	Yes	No	We are frequent cyclists and are hoping congestion pricing will lead to safer riding				
Utilize street parking	Yes	Yes	BPC is a family neighborhood with parents who work full time and children who are enrolled in various sports and extracurricular activities that require said families to use cars to. Congestion pricing should be insisted for livery not for working families who live downtown.

N/a	Yes	Yes	I support the residential exemption for the BPC congestion pricing.				
237 West Thames St NY, NY 10280	Yes	No	New York City residents are already taxed at such high levels in nearly every aspect of life in a very expensive city. We use public transportation within the city, but rely on our car to leave the city to visit family and friends further distances away. Residents shouldn't have to pay additional fees to park in their own neighborhood.				
NA	Yes	Yes	This creates an implicit tax on battery park residents as one can never leave their home without crossing west st				
225 Rector Place, 15G	Yes	Yes	This will greatly add to the cost of living and raising children in BPC. We have lived here for 12 years and don't want to be forced to move.				
Pier 40 garage	Yes	Yes	We are part of car pool that often drive our kids to school across town (PS 126). We also drive our kids to various sports practices and games within the downtown area several times per week				
Battery Park City Garage on West st	Yes	Yes	NYC considers BPC residents as residents of Manhattan for tax purposes. As such, we must have the same rights as other residents of Manhattan!				
2 River Terrace	Yes	Yes	We need a study to see how residents of BPC actually use their cars. Many of our neighbors are medical doctors who travel daily to hospitals outside of Manhattan, for example. Asking them to pay an additional \$23+ per day to care for others is too much. Very few if any residents of BPC with cars use them to drive into the CBD during peak hours, or otherwise, so being charged to exit the neighborhood onto an exempt thoroughfare to travel to other parts of the city outside of the CBD or out of state (via a bridge or tunnel) seems unjust. This is just another tax on an already heavily taxed population.				
Laz Garage on Morris	Yes	Won't bankrupt us but de	London provides discounts to residents who live in the zone and you don't pay on days when your car is not used. The proposals I have seen without those concessions are completely unreasonable to residents who already pay high property taxes (and garage fees!)				
333 Rector Pl	Yes	Yes	N/A				
300 N End Ave	Yes	Financial hardship is irrele	Battery Park City is not the problem where congestion is concerned. I realize we may be too late to exclude BPC from the zone, but at least give the residents an exemption.				
2 River Terrace, New York NY 10282	Yes	Yes	We do not use our cars on the weekdays. Primarily to visit family outside of the city on the weekends.				
Gateway Plaza Garage, 345 South End Ave New York NY 10280	Yes	Yes	Subjecting BPC residents to congestion pricing is grossly inequitable, because we are boxed in by West Side Highway.... while residents of FiDi and Tribeca who live on the other side of the highway would not face the same tolls for entering / leaving their neighborhood				
Street Parking	Yes	Yes	Strongly request exemption for BPC residents				
Laz 70 Greenwich street. This is the battery park garage where many bpc residents park and should also be exempt.	Yes	Yes	We have lived in the neighborhood for over 13 years and this is another thing to push families out of Manhattan.

395 s end ave	Yes	Yes	I have an autoimmune disease lupus which impacts my mobility during seasonal flair ups. I have two small children which I use to get my children around ( school and their dads) as well as commute to my small business at the Brooklyn navy yard. This would deeply impact my life in multiple ways.				
Park in street when I have a car	Yes	Yes	Battery Park a city residents should have a resident exemption or we'll further drive out local residents				
225 Rector Pl	Yes	Yes	I am against this toll. A large number of workers in Battery Park live outside lower Manhattan and it's not fair to them. Doesn't seem well thought out.				
Battery Tunnel Garage	Yes	Unknown	Residents, especially elderly or disabled who require their own easily accessible transportation, and those with children who attend school outside the neighborhood should not be additionally taxed to attend doctors appts., school events, emergencies. Congestion/increased pollution in lower Manhattan is a by-product of for hire vehicles trolling for rides, double parking and idling on the streets-not residents living their daily lives.

201 W Thames St	Yes	Yes	Already expensive to maintain my home with increasing insurance, HOA, property taxes. We already pay in excess for living in Battery Park City to maintain the high quality of the surroundings that the tourists seemingly enjoy on a daily basis. 333 Rector Place	Yes	Yes	BPC residents already pay a high share of taxes and this will make living in nyc even more unaffordable. Our neighborhood is already isolated and we have to cross over or use WSH to leave our neighborhood, which shouldn't incur tolls that would impact us more than any other Manhattan residents. There is already a precedent for Staten Island residents to be exempt from Verrazano Narrows tolls. We should be given a similar exemption or even discount from the congestion pricing.	jbixenman@gmail.com

			I answered the survey out of real concern that additional traffic driven to the west side highway will be a massive inconvenience but also dangerous for our families. We cross the west side highway into battery park on an almost daily basis. For downtown little league practice and games, to access our beautiful parks, to check out the restaurants and to play in the downtown soccer league. I say this to mean that my children- on their balance bikes and scooters- do this. More traffic will mean more dangerous drivers. Trying to cut across on red. More drivers trying to take left turns through pedestrians. More smog. More honking. But, almost assuredly, more accidents. The children-accessible nature of this area is what drew most of us to it. I would hate to see that negatively impacted bc of a lack of consideration for what the real impacts of this decision will be on the residents of BPC and Tribeca not just financially, but in terms of quality of life.

200 north end	Yes	Yes	This isn't an issue specific to bpc. We are former residents and still have our car parked there. Initiative should include all residents	philipcyang@gmail.com			
2 River Terrace, New York, NY 10282	Yes	Definitely adds to the already	BPC residents should be exempted from the congestion pricing or have a significant discount since we are the victim of the congestion pricing while we do not create the congestion. The congestion is caused by the non residents. We should not be paying for them. The visitors need to pay for all the costs themselves.	me@jayzhan.com			
219 Albany Street	Yes	Yes	BPC already carries the onus of Ground Lease payments to Albany; this would be an additional tax we'd have to shoulder.	jaime.delia@gmail.com			
70 battery place garage	Yes	Yes	We have an infant son and an elder dog. Parking our car elsewhere will not be a viable option for our family. We bought our apartment in BPC hoping to raise our family here. Residents should be able to park without additional fees.	nicolesufian7@gmail.com

Harrison St	Yes	Yes	Families who live here have to get their families around town to activities as they do in the rest of the country, we should not pay a penalty for those commuting in when we already pay a premium in taxes to live here.	easjohnson@gmail.com

Battery Parking Garage, on the east side of the west side highway, across the west side highway from where I live.	Yes	No	We use the subway/bus for commutes in Manhattan. We keep and use our car primarily for out-to-town trips on weekends. We park in a garage that is on the east side of the west side highway, so it would cost us \$23 to take our car out of the garage and drive to 2 minutes to our building to load when we leave the city (generally via west side highway to Holland Tunnel). Then when we return to the city we'd have to pay another \$23 to exit West Side Highway to unload our car, then drive back to our garage. So we'd need to pay \$46 to leave the city for the weekend. This doesn't seem right. I am happy to the pay congestion charge if I decide to drive my car into midtown (which I never do because the subway is faster!), but not to drive for a few minutes in my own neighborhood. This is insane.	mariam1zny@gmail.com

2 River Terrace New York NY 10282	Yes	Yes	We have a small family which requires very frequent car rides to various kids activities and this congestion pricing is unreasonable	suneja.yatin@gmail.com			

			<p>Residents in the "business district" who park their car monthly in a garage in the business district and do not utilize their car to drive within the city regularly should be exempt. Even more so for those who's garage and apartment building are just off the West Side Highway. We live at 21 West and park in the Battery Garage utilizing the Morris Street entrance. We enter and exit the west side highway from morris to leave the city. We do not drive within the city and therefore are not causing congestion. We need our car to be able to leave the city on weekends and for holidays with 2 kids and a dog. This toll would cause us to potentially get rid of our car, causing a hardship and the tax would be far too high for us to pay on a regular basis.</p> <p>In addition, the congestion that this will cause on the West Side Highway, which is already difficult to navigate as well as the Battery and Brooklyn tunnels would be impossible. It already takes an hour to go from lower to upper manhattan during rush hour. This would create a parking lot on the West Side Highway and make crossing the streets with small children even more difficult at the tunnel and on the west side highway over to battery park city.</p> <p>Finally, I am curious as to how people will be charged to enter the tunnels or bridges where one must exit the highway and drive into the city. There has been no explanation around that.</p>

56 Murray Street, New York, NY 10007	Yes	Yes	I am physically disabled due to a joint disorder and long Covid. I have been on crutches since February 2022 with limited mobility and require a car to go to and from daily doctors/ physical therapy appointments. The cost of these services plus the cost of transportation is already very high; these additional charges would cost our family hundreds of dollars a week for me to just attend medical appointments.
